Summary

Highly motivated and accomplished Information Technology student at the School of Computing and Technology, Eastern Mediterranean University, graduating with a CGPA of 3.81 (High Honor). Recipient of the Top Students Award for two consecutive semesters and the Best Graduation Project Award for a 1 year long full-stack development project, I have cultivated a global perspective and valuable skills from living in a multicultural environment. My expertise spans across various IT disciplines, including team leadership, project management, full-stack web and app development, and network administration.

Studying abroad has honed my adaptability, cross-cultural communication, and problem-solving abilities. I am passionate about continuous learning and possess a strong attention to detail.

Experience

Saed — Jeddah, Saudi Arabia

Web Development Intern, Technical Support, Database Administration Intern — 06/2024 - 09/2024

Employment and H.R Company

- **Technical Support and Hardware Maintenance**: Gained practical experience in OS installation, component replacement, and maintenance tasks
- **Database and Networking**: Participated in database design, migration, and recovery tasks; learned database security techniques; configured network hardware, set VLANs, and troubleshot office networks.
- **Web Development and Design**: Contributed to designing and implementing a company website using Figma, Next.js, and Tailwind; developed front-end features and collaborated on schema implementation for database integration.
- **Cybersecurity and Team Collaboration**: Conducted penetration testing and learned key security practices; engaged in cross-departmental teamwork across technical support, database, networking, and development teams.
